

Security Light Contract

The Steuben Rural Electric Cooperative, Inc. shall furnish, install, own, operate and maintain a photoelectrically-controlled luminaire, complete with suitable pipe bracket.

The lighting unit shall be installed on property owned or leased by the member. The Cooperative reserves the right to require a mounting height, which will provide proper light distribution from the unit. In the event a Cooperative pole is appropriately located on the premises, the Cooperative may waive the requirement that the support be furnished by the member, and install the unit on the Cooperative's pole without any additional charge, provided the Cooperative continues to use the pole for all other purposes. In the event the Cooperative is required to furnish a pole, the member shall be billed a pole charge as set forth in the Schedule of Fixed Charges and Fees.

Upon request by the member, the Cooperative shall change the location of the lighting unit, provided a proper support is furnished and the member agrees to pay the Cooperative for costs incurred in making such change.

The member shall notify the Cooperative's Line Department whenever the lamp shall become extinguished or out of service for any reason, and the Cooperative shall replace the lamp or make necessary repairs with reasonable promptness during regular business hours, Monday through Friday.

The member shall grant right-of-way access to the unit and pole to permit any tree trimming required to install and maintain the photoelectrically-controlled luminaire.

The member agrees that the unit, including the pole and conductors, may be removed at any time by the Cooperative upon failure by the member to pay the charges set forth in the Schedule of Charges and Fees.

The Contract is subject to cancellation in the event maintenance or lamp replacement become excessive due to vandalism or other causes.

The minimum period of this Contract shall be for one year for which the member agrees to pay as set forth, and this Contract automatically renews itself upon anniversary date for an additional year, unless the Cooperative shall have been notified to remove the unit prior to the expiration date. The unit, as installed, remains the property of the Cooperative and will be removed at the member's request upon the anniversary date of this Contract.
